PAUL WERNER,

LOCAL NEWS.

Sunday, Feb 14, is Valentine Day.

Mr R B Brooks made a business trip to Edson over the week-end.

Mr L Freifeld was a Stony visitor on Monday.

Paul Meredith has returned home from a trip east.

Mr and Mrs G W Shreeves lately of Montana were out renewing old acquaintances in Stony last week.

Mr H McKenzie of Bon Accord, who has spent a week's holidays with Mr Kimmerly of Holborn, returned home on Friday.

Mr Schickendantz of Edmonton was in Stony on Saturday.

R H Kruger is the new mechanic at the Stony Plain Garage

Mr J F Clarke has purchased the house of Mr Jac Hennig on the Boulevard and intends moving to the new residence sometime next month.

Mr C W McKenna is holding an Auction Sale at his farm south of town on Monday, Feb 15.

Mr R Speakman has been appointed the new local agent for the Star Car.

A dance will be held in the Holborn Hall on Friday, January 12th, by those famous musicians, Arngquist and Sund accordion and violin, who play through C J C A

The death of Napoleon Larue occurred at his home in the Spruce Grove district on Tuesday afternoon, Feb 9, following an illness which lasted for several months. He was in his 68th year and had resided in that vicinity for the past 28 years, his death coming as a sorrowful shock to his many friends although they knew that his end was near at hand. The funeral will be held on Friday at the St Joseph's Church Spruce Grove, where the body will be interred.

Roberts-Fischer.

On Wednesday evening Feb 10, Miss Margaret Fischer, daughter of Mr and Mrs Albert Fischer, of Stony Plain, was united in marriage to Mr David Roberts, the ceremony being performed at the Spruce Grove Lutheran church by Rev G Poetsch. Miss Freida Fischer was Bride's maid while Mr Carl Fischer and Jack Enders, well laden with decorations, were the Groom's best men.

On their return back to Stony no time was lost in organizing a band and proceeded forthwith to the place of concealment where they attempted to dislodge the New lyweds by sweet music. It was not until the Cow-bell Orchestra had rendered several selections was a settlement made and all dispersed.

Thrift

At this season of year banks, insurance, trust, mortgage companies and financial corporations generally are publishing and distributing their annual reports for the past year, and through the advertising columns of financial journals and the newspapers informing the public of the results of the past year's operations. Without exception, so far as noted, all companies have the same satisfactory story to tell—a record of increases all along the line, and an optimistic note sounded for the current year.

The showing made by an exceedingly satisfactory year, not only from the standpoint of these companies and their shareholders, but from a broad Canadian national standpoint. These reports reveal a healthy state of affairs.

One of the features of these reports is especially gratifying and reflects great credit upon the people of this Dominion. We refer to the marked increase recorded in savings accounts and investments, such as life insurance, which constitute savings. The opening of tens of thousands of new savings accounts is recorded, while the volume of new savings money poured into tens of millions of dollars. Practically every life insurance company reports a "record" year, representing further very large savings on the part of the Canadian public.

Unquestionably the war years, with the great Victory Loan campaign, educated thousands of people in the art and value of saving. They bought Victory Bonds at first from purely patriotic motives—to help win the war. And the manner in which the people of Canada proved their ability to finance the enormous war expenditures of this country, when the British, United States, and all old world money markets were closed to them, was not the least surprising thing the nations of the world learned about Canada during those fateful years.

But what the people of Canada learned to do from patriotic motives between 1915 and 1918, they are continuing to do as a matter of sound business. To an increasing extent Canadians are saving, and carefully investing their savings. The semi-annual clipping of coupons for Victory Bonds, or the receipt every six months of a Government cheque for interest earned on Bonds, became a pleasant and very satisfactory occupation. People learned, many for the first time, how money makes money, and how rapidly interest mounts up, and especially if it is re-invested instead of dissipated in possibly foolish expenditures and needless extravagances.

The practice of thrift is the cornerstone of prosperity for a nation, a family or an individual. With the small sum of one dollar a time of storm and stress. It is an effective guarantee against financial worry. It is a source in times of sickness and in old age. It makes for contentment and a serene happiness.

The Government, through the good office savings banks and its annuity scheme; the banks and other sound financial corporations by their savings accounts, provide easy, safe and convenient means of saving for the people everywhere. With the small sum of one dollar a saving account can be opened. Furthermore, these seemingly insignificant accounts are welcomed even by the strongest banks. Bankers, better than most people, realize that the dollar saving of today will represent a really worthwhile account in the not distant future. Like the old nursery rhyme, "Little drops of water, little grains of sand, make the mighty ocean and the beautiful land," so do the cents and the single dollars roll up mighty bank accounts. All parents should encourage their boys and girls to start a savings account, no matter how small. In fact, parents may well commence this good habit by starting a savings account for the baby before it is old enough to think for itself. Very small amounts regularly set aside may provide for the future education at a time when possibly some reverse in the family fortune might otherwise deprive such child of the advantages it ought to enjoy.

The habit of thrift develops character. It makes for earnestness, thoughtfulness, the exercise of care. It is a safeguard against shiftlessness and encourages the putting forth of one's best energies. The substantial gains which thrift brings give a new value to work. The "no-do-wells" of the world are those who scorned to save.

Thrift does not mean greed nor miserliness, but it does mean economy, the absence of waste and extravagance. With a return to better times throughout the country, and more money in circulation, it will be a mighty fine thing for Canada, for the family, and the individual if the habit of saving goes on increasing and a reasonable proportion of the resultant prosperity is placed in a savings account or some sound investment against the rainy day which is inevitable at some time or other in the life of every one.

Want Rates Cut
A 25 per cent. reduction in freight rates for livestock in Eastern Canada was the request placed before the Dominion board of railway commissioners, meeting at Toronto, by members of the Eastern Canada Livestock Union.

Discovered By Accident
Turkish towelling was discovered when a loom weaving smooth towelling became disarranged and broke many of the threads. The operator, wiping his hands on the discarded product, found it better than the perfect cloth.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Farquhar's Teething Drops and Soothing Syrup, especially prepared for infants in arms and children of all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Follow directions on each package. Physicians everywhere recommend it.

Britain Needs Ready Money

Reason Winston Churchill Gave Italy

Such Reasonable Terms That in the years' time Britain will have recovered from her present industrial depression, and will be on the high road to prosperity, and that for this reason it is better to get money now from Italy rather than to wait, like the United States, in the general interpretation, but upon Churchill's policy of funding Italy's debt.

Winston Churchill is gambling on Britain's future, with absolute faith in her ultimate recovery, since he gave Italy more favorable terms than the United States awarded them, for the sole purpose of getting ready money which is needed for current expenses, and for the budgets of the immediate future.

Talain emphasizes the fact that Churchill and others have made careful analysis of the trade barometer, and have given the premier the assurance that there are signs of improvement and grounds for sober optimism. Meanwhile, upon the battlefield, the grimest battle to avoid a budget deficit, which the political experts say is inevitable.

ONE SURE WAY TO GOOD HEALTH

Is Keeping the Blood Rich and Red—Dr. Williams' Pink Pills Make Rich, Pure Blood and Restore Health.

Thin, pale people lack the power of resistance to disease that rich, red blood gives. Blood breakdown is the result of thin blood. So is anaemia, indigestion, rheumatism and many other troubles. People suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For more than a third of a century Dr. Williams' Pink Pills have been famous as a nerve restorer. Thousands upon thousands of letters from grateful people have proved the rare value of this medicine. The first effect of the pills is usually to stimulate the appetite; then the spirits revive and restlessness at night gives way to health-restoring sleep. For sufferers from anaemia, nervousness, general weakness, digestive troubles, rheumatism; or the after-effects of influenza or acute diseases, Dr. Williams' Pink Pills are a restorative of the utmost value. If you are weak or ailing give these pills a fair trial and the result is sure to be beneficial.

"Dr. Williams' Pink Pills have done wonders for me," writes Mrs. Russell Hill, Norwood, Ont. "I was run-down and could not eat or sleep and would sometimes faint. I took a lot of doctor's medicine but it did not help me. It was a real trial to do my housework, or to go about, and I got so that I scarcely cared whether I lived or died. One day while reading a paper I saw an advertisement about Dr. Williams' Pink Pills. It described a case very much like mine and I decided to give the pills a trial. I had not been taking them long when I could feel a change for the better. I continued the pills until I had used eight boxes when I felt like a new woman. Every disagreeable symptom had vanished and I gained in weight, and a good color returned to my face. All this I owe Dr. Williams' Pink Pills and I am now never without them in the house, and any time I feel out of sorts they are my only recourse. I can bear this testimony in the hope that it will benefit some other sufferer."

"Two useful books, 'Building Up the Blood' and 'What to Eat and How to Eat,' will be sent free by The Dr. Williams' Medicine Co., Brockville, Ont., if you mention this paper."

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail, post paid, on receipt of price, 50 cents per box.

B.C. Professor Honored

Is First Canadian Awarded Fellowship by International Educational Board

Word has been received by the University of British Columbia from the International Educational Board of New York, that Professor Wilfred Sadler, of the U.B.C. dairying department, has been awarded a fellowship of \$2,000, expenses to and from Europe and tuition and laboratory fees while studying in Europe. This is the first time that such an award has been made by the International Educational Board to a Canadian. Prof. Sadler plans to leave for Europe in May on one year's leave of absence and will work for three months each in several leading laboratories, specializing in his particular work.

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade name (registered in Canada) of Bayer Manufacture of Monocristalline Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin will be stamped with their general trade mark, the "Bayer Cross."

Heavy Cattle Shipments

For the first time since 1921 the exports of Canadian cattle for one year from the Dominion have exceeded 100,000 head. The figures for the first eleven months of 1925 show that exports to the United Kingdom totalled 102,406 head. This compares with exports of 76,394 head for the previous corresponding period. In 1923, during the same period, the exports were 55,140 head.

For Scalds or Burns—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and adds a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

Money Allocated By Dice

Males who have been in domestic service in one family in Guildford, Surrey, for two years or more, are invited to apply for the "Maid's Money" which, according to an old custom, is to be allocated by the throwing of dice.

Exhausted from Asthma. Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one true remedy which will usually stop this drain. Dr. J. D. Kellogg's Asthma Remedy—a wonderful check to this enervating ailment. It has no less a record of relief to its credit. It is sold almost everywhere.

Sugar Exports

Great Expansion Shown In Sugar Refining Business This Year

A feature of the Canadian sugar statistics, issued by the Dominion bureau of statistics is the export business for the month of November, which shows a total of 5,920,700 pounds of refined sugar, valued at \$242,786, sent out of this country during that period as compared with 747,900 pounds, valued at \$68,634, in November of last year. Such a showing is in keeping with the expansion that has been shown throughout the past year, when compared with 1924.

Expect Stream of Settlers

Sound Condition of Agriculture and Other Factors Will Add to Population

"There has always been a psychological or right time, and I am convinced that this is the psychological time for new settlers to come to Canada, especially when one considered the healthiness of the agricultural industry in the Dominion and the general high prices prevailing for agricultural products," said Hon. W. R. Motherwell, federal minister of agriculture. Mr. Motherwell is confident that a steady stream of settlers can now be expected from the British Isles and Europe, and stated that he believed that immigration in the immediate future would develop largely along homestead lines.

It Bids Pain Begone.—When neuralgia racks the nerves, or lumbago cripples the back, is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Sugar Sack Hats

A large consignment of ordinary sugar sacks has been brought by a famous dressmaking house in London for the purpose of making hats. Sacks cloth on the head, if not ashes, is the mode of the moment.

A man may dodge the earthly collectors, but he must pay the debt of nature as he goes.

Coughs and Colds Mean Restless Nights

Which are the cause of Danger lurks in every cold or cough. It is a danger to run. As the cold or cough holds you back, it is a danger to your health. It is a danger to your business. It is a danger to your peace of mind. It is a danger to your life. Always say the Large Size.

GRAY'S SYRUP OF RED SPICE GUM

Manufactured by D. WATSON & CO., New York

Order Your Farm Help Now

TO BE OF SERVICE to Western Canadian farmers and help to meet their needs in securing competent farm help, the CANADIAN PACIFIC RAILWAY will continue its Farm Help Service during 1925, and will include in this service, as last year, the supply of women domestic and boys.

Throughout the past year the Company has been in touch with a number of farm laborers in Great Britain, Norway, Sweden, Denmark, Holland, Belgium, Poland, Czechoslovakia, Hungary, Rumania, Serbia, Germany and Roumania and can promptly fill applications for farm help.

In order to have the help reach Canada in time for spring operations, farmers requiring help must get their applications in early, to enable us to secure the help needed.

Blank application forms and full information regarding the Service may be obtained from any C.P.R. agent or from any of the officials listed below.

THE CANADIAN PACIFIC RAILWAY COMPANY

CALGARY: J. N. E. Macleod, Superintendent of Colonization, H. P. Kew, Superintendent of Colonization, J. H. Bower, District Passenger Agent, J. Miller, Land Agent.

EDMONTON: J. N. E. Macleod, Superintendent of Colonization, J. H. Bower, District Passenger Agent, J. Miller, Land Agent. M. E. Thompson, Assistant Commissioner, J. B. Dennis, Chief Commissioner.

The Horse Breeding Industry In More Promising Condition Now Than For Many Years

"Conditions in the horse-breeding industry are better and more promising than they have been for years," was the hopeful message given by Robert Thomas, of Grandora, president of the Saskatchewan Horse Breeders' Association, at the annual meeting at Saskatoon. Mr. Thomas said that there had been a far greater advance in the price of good horses than farmers who had neither bought nor sold horses realized. He had attended a recent horse sale at Saskatoon and believed that the prices of good horses averaged fully \$50 more per head than prevailing prices a couple of years ago.

Speaking on the changing condition in the horse industry in Canada, J. M. McCallum, chief of the markets division, livestock branch, Ottawa, said that Ontario is no longer the great supply centre for horses, as breeding had fallen off very greatly in that province, and it is doubtful whether Ontario is supplying its own waste. Figures for the past three years showed shipments to Eastern Canada from the west amounted to over 10,000 horses in 1923; 17,443 in 1924; and 17,900 in 1925. Besides this, quite a number of western horses have found a market in British Columbia.

"The fact that some 30 horse breeding clubs in Saskatchewan and some 20 in Manitoba were operated last year indicates that the greatest activity in horse breeding in the Dominion is found in the prairie provinces," Mr. McCallum stated.

"Regarding the market for commercial horses, we may just as well face the fact that there is a profitable outlet for only a few types, and that the farmer who is anxious to make a profit from his horse-breeding operations must study that market and direct his energies to producing only those kinds which can be advantageously used on the farm, and for which, when offered for sale, there is a steady demand."

"Farmers will apparently continue to depend on horses for supplying farm power and breeders should raise horses with a view to supplying the city demand for good, big sound drafters, as big as it is possible to grow them, and to supply the farm demand both east and west for good big agricultural horses combining size, quality and action."

"The return to the increased use of horses on the farms in Canada both east and west since the close of the Great War to secure greater production, is a fairly conclusive indication that the tractor and the motor truck are not going to soon displace with the use of horses."

Truck Farm in New York

Prisoners Work 540 Acres On Island in East River.

New York City, not usually thought of as an agricultural community, has within its boundaries at least one good-sized truck farm. The farm is located on Riker's Island in the east river, and, in a report of the state commission of prisons made public, its operation is credited to workhouse prisoners and their attendants.

"The horses on the island assist the prisoners in their work on the farm and about the institution. The land on which the farm is located is for the most part refuse by which the island has been kept clean since its purchase by the city in 1884."

Tree Seed For Britain

Lodgepole Pine and Spruce Seed Being Sent From Alberta.

The seed extraction plant of the Dominion forestry branch at Rocky Mountain House is now working on an order for Canadian tree seed from Great Britain. Lodgepole pine, spruce and fir seed is being prepared at the plant, while other varieties of tree seed will be prepared at the New Westminster plant. Approximately 600 pounds of lodgepole pine seed and 150 pounds of spruce seed will be prepared at the Alberta plant.

Our idea of an convict in the map who thinks his wife ought to call him "cotton" just because he parts his hair with military brushes.

W. N. U. 1818

Saskatchewan Butter

Production During 1925 Was Valued At \$20,444,848.

Dairy production in Saskatchewan during 1925 was valued at \$20,444,848, an increase of about \$1,800,000 over the previous year, according to a report of the dairy branch of the provincial department of agriculture. During the year 15,850,000 lbs. of creamery butter were manufactured, as compared with 12,566,905 lbs. in 1924. The total 1925 output was more than double the production of 1921.

A feature of the dairy industry in Saskatchewan last year was the increase in butter exported from this province to the British markets. During 1925 more than 10,500,000 pounds of creamery butter was graded for export. This represents a quantity more than double that graded during the previous year. No definite figures are available as to the ultimate destination of all the butter exported, but it is understood that the majority of shipments went to England.

Alberta Oil Wells

Eighty Thousand Miles in the Province That Have Petroleum Possibilities.

There are approximately 80,000 square miles in Alberta that have petroleum possibilities, according to a reported statement made by Dr. Allen of the University of Alberta. Development work included 96 wells completed and, at August, 1925, 15 wells were being drilled.

The oil refinery at Cochrane, Alberta, close to the Montana boundary and the Sweet Grass oil field, will soon be operating with a staff of 16 men, and with a handling capacity of 3,000 barrels of crude oil daily.

Surplus Farm Products

Total of Nearly Three Hundred Million Was Value of Surplus Products in Saskatchewan.

On a very conservative estimate the farmers of Saskatchewan would receive from the sale of their surplus farm products in 1925 a total of \$285,210,395, as compared with only \$185,547,250, or an increase of \$99,663,000 over the previous year, according to Premier Dunning. He further pointed out that the estimate was made on such a conservative basis that the actual figures in his opinion, would be nearer \$100,000,000 greater than the figure given.

Alfalfa Growing Centre

Red Deer Valley in Alberta Is Leading Centre For Alfalfa on the Continent.

The Red Deer River valley, is the alfalfa growing centre of the North American continent, as formerly the leading agricultural district of Northwestern Minnesota, North Dakota and Manitoba gathered in convention at Thief River Falls, Minnesota. Peculiar soil qualities which prevent the "reseeding out" of alfalfa, desirable territory for permanent alfalfa growing, Prof. J. R. Ellis, of the field husbandry department of the Manitoba Agricultural College, declared.

Seed Cleaning Plant

About 70,000 Bushels of Wheat to be Handled at Edmonton Plant.

Between 60,000 and 70,000 bushels of wheat will be handled by the Alberta provincial seed cleaning plant this winter, according to W. J. Stephen, field crops commissioner. This will be mostly Marquis wheat, and Victory and Blumber wheat. There will be approximately 10,000 more bushels of wheat this year, than last and the quality of the grain is said to be exceptionally good.

Industrial Winnipeg

Further progress has been made in the industrial development campaign being carried on at Winnipeg. Financial and industrial men interested in the construction of a sugar mill, woolen factory and a plant for iron and steel mill ware, have been visitors to the city, and certain definite announcements from them are expected at an early date.

A Great Industrial Area

Natural Resources Development in the Ottawa Valley.

One of Canada's industrial areas that is heavily endowed with natural resources, and one that is destined to become more important in the near future, is the Ottawa Valley. The Ottawa River provides a number of excellent waterpower sites, some of which have already been developed, while others are contemplated for the near future. This available power has been the means of attracting many manufacturing industries since the natural resources intelligence service of the department of the interior.

The forest industries are probably the most important feature of the Ottawa Valley, and the cheap abundant power available is attracting many large plants. The International Paper Co., is engaged in the construction of a large pulp and paper mill at East Templeton, on the Ottawa River; also a hydro-electric plant at Chelsea, on the Gatineau River. At Ottawa are located the saw mills and the pulp and paper mills of the J. B. Booth Co., and the pulp mill of the H. W. H. Co. Directly opposite to Hull, are the large pulp and paper and other mills of the E. B. Elder Company, while at Hawkesbury the International Paper Co. have extensive pulp mills. Large lumber mills are located at several points along the river, particularly at Pembroke, Ottawa, Rockland and Hawkesbury. The Singer Sewing Machine Company is undertaking a hardwood development north of Thuro and is erecting a factory at the latter place to prepare all the woodwork for its several plants.

In what may be termed the industrial area of the Ottawa River, power has been developed at Hawkesbury, Ottawa and Bytown, while there are many other sites available. It is reported that the waterpower at the Chate Falls, on the Ottawa River, and the Pagan Falls on the Gatineau River, will shortly be developed, while the Carillon Rapids power site is also being considered. At Chelsea, on the Gatineau River, the International Paper Company is constructing a large power plant. The Ontario Hydro-Electric Commission is obtaining data preliminary to development of Ottawa River power sites with the object of providing additional power to Eastern Ontario.

The Ottawa Valley contains a large variety of minerals, and, while a number of excellent deposits of minerals are in operation, some of which are reported to be the largest in America, there would appear to be splendid opportunities for greater development. On Chate Island, near Galesburg, is located the lead mine of the Kingston Mining and Smelting Company, the largest lead producer in Eastern Canada. A few miles north of Galesburg is the Mossy Mountain mine, which during the war became the world's leading division producer.

The Black Donald graphite mine, said to be the largest and richest deposit of fake graphite known in America, is located at Calabogie, in Renfrew county.

The lignite deposits of the Buckingham district are among the most important in Canada, and the quality is said to be of the best.

The Ottawa Valley is the centre of the mica mining industry in Canada. The chief producing areas are in the territory within easy reach of the city; although the largest mica mine in Canada, and probably in the world, is located in Frontenac county, Ontario.

The largest deposit of magnesite yet discovered in the North American continent is in the Grenville district, between Ottawa and Montreal. During the war the magnesite from this area met with a good market, due to the fact that Austrian magnesite was not available. The large users of this mineral in the United States, however, are reported to be financially interested in the Austrian deposits, and though the latter is said to be inferior to the Canadian magnesite, Canada has not been successful to any great extent in meeting Austrian competition.

At Deschenes is situated the refining plant of the late British American Nickel Company, whose concentration from the mines and smelting of the company at Sudbury, Ontario, were refined.

British Settlers Coming

One thousand British settlers are leaving the United Kingdom in April for the west coast of Canada, in an enterprise by the soldiers' settlement board.

Does Not Believe In Any Plan That Would Wipe Out Old Established Banking Systems

Violet Rays and Poultry

University of Wisconsin Claim Better Egg Production With Artificial Light.

The ultra-violet ray, already employed predictably by medical men to heal human ills, is being used at the University of Wisconsin to produce "more and better" eggs and chickens.

Nearly three times as many eggs can be produced by action of the ray, the departments of agricultural, chemistry and poultry have found.

Heavier shells in irradiated pens also increased hatchability of eggs and greater hatchability resulted. The ultra-violet light was found to cure fowls suffering from rickets.

January 1, 1925, four groups of pedigree Leghorns were put on similar rations in identically arranged pens, without natural light. The pens were artificially lighted during daylight hours.

Two groups were subjected to ultra-violet radiation. When the eggs were collected two or three times as many eggs were found in the irradiated pens as in the ordinarily lighted houses. Egg production began to increase markedly within eight days after ultra-violet light was applied.

Sanctuary In the Rockies

Jasper Park Is Largest Animal and Bird Reservation of its Kind.

The story of a remarkable increase in wild life in Jasper National Park, Alberta, under the policy of animal and bird conservation being pursued by the government, is told in a statement issued by Col. S. Maynard Rogers, superintendent of the park. Animals and birds which were unknown in the park area a year ago have taken up their abode there and are flourishing even though the environment is entirely different to that to which they have been accustomed in the past. As instances of this he cites the presence of moose and prairie chicken.

Jasper National Park, which, with an area in excess of 4,000 square miles, is the largest national playground in the world, is also the largest animal and bird reservation of its kind. Heretofore to populate it with wild life which had been depleted by wanton killing were begun as soon as the reservation was formed, but the work has only been systematically developed during the past few years.

High Grade Western Coal

Claims Alberta Coal Is Equal To Anthracite.

Jesse R. Gouge, Alberta coal operator, told the engineering institute convention at Toronto that Ontario would have no anthracite problem for five years. "You may theorize as much as you please about heat units," he said, "but you must bear in mind it is not a case so much of what is in coal, as what can be got out of it. The Alberta coal has every feature of anthracite."

Mr. Gouge was replying to statements made by L. R. Thomson, of Montreal, regarding shipment of Alberta coal to Eastern Canada. Mr. Thomson had said that possibilities of shipment of Alberta coal east, under present conditions, was more of a "political rallying cry" than a serious economic proposal.

Raymond Sugar Factory

Southern Alberta Stockmen Fattening Cattle and Sheep at the Factory.

Beet pulp from the sugar factory at Raymond is being used as a feed for fattening stock and, from present indications, Raymond will become a great stock feeding centre. All best growers are hauling it daily and feeding to livestock. A number of prominent Southern Alberta stockmen are fattening cattle and sheep at the factory, and the Raymond School of Agriculture is undertaking extensive experiments with the pulp in the fattening of both cattle and sheep.

Efficient Clerk

"What have you in the shape of automobile tires?" "Pneumatic wheels. I use pneumatic wheels and doughnuts."

Strong advice against any hasty action in revolutionizing the present financial system, was tendered by Professor C. R. Fay, University of Toronto, discussing rural credits at the Saskatchewan Grain Growers' Association convention at Saskatoon.

The existing system might have its faults, but it would not be advisable to make any changes unless every step had previously been fully studied and the effects of the proposed action taken into consideration, he said.

"I do not believe in any system that would wipe out the old established banking system as such at the present time," the speaker declared. "This is probably not exactly what you would expect me to say, but it is my honest opinion."

"Our attitude in improving the present system should not be one of revolution. We should make sure that any changes we propose to make are logical, and then put them into effect by gradual stages."

The speaker somewhat surprised the audience when he said that he did not believe that the banks had deliberately set about in any way to exploit the farmers. In his experience most of the bankers were doing their utmost to oblige the farmers and were giving loans consistent with the security available.

In his opening remarks Professor Fay described (the difference between long-term and short-term credits, and outlined for the benefit of the audience the various systems of rural credit that had been established in some of the European countries, particularly Germany. He also described the system in vogue in the United States which he said in a measure had been established along similar lines to those systems in Europe. It was impossible here, however, to follow along the same lines as found satisfactory in Germany, as conditions here were entirely different.

Growth On Irrigated Land

Figures From United Irrigation District in Alberta.

The United Irrigation district in Alberta has completed its second year of actual operation and figures now obtainable show that irrigation is successful in materially increasing the yields of all grains and field crops. It is estimated that wheat grown on summer-flooded and irrigated land will yield about 45 bushels an acre; wheat grown on spring flooding and irrigated, 20 to 25 bushels per acre; while wheat grown on unirrigated land will range between 10 to 20 bushels to the acre. Oats, barley and other coarse grains show a corresponding increase in yields of irrigated areas.

Agricultural crops produced in the Canadian Pacific Lethbridge irrigation district during 1925 had a value of \$2,076,729, representing the production of 58,048 acres. The gross revenue per acre was \$35.72, an increase of \$8.50 per acre over 1924.

Saskatchewan Watermelons

Very Fine Type of Both Muskogee and Watermelon Can be Grown.

Experiments carried over a number of years by the Mowchenko Brothers, of Ardill, Saskatchewan, in the growing of selected seed and crossing one variety with another, has resulted in the production of a very fine type of watermelon, muskmelon, which can be grown successfully any season in this province. Experiments along these lines have been carried out in the irrigated sections of Southern Alberta during recent years and have been comparatively successful.

Fox Farming in Alberta

Alberta is assuming importance as a fox farm country. The industry has grown tremendously in this province in the last few years. P. W. Trotter, winner of used auto prizes at the International Show in Chicago, is the latest to start fox farming. He bought some of the winners at Vancouver show for his Calgary farm.

B.C. Coal Industry

British Columbia produced approximately half a million tons of coal more in 1925 than in 1924, according to figures compiled by the provincial mines department.

WORLD HAPPENINGS BRIEFLY TOLD

In consequence of the increasing number of road traffic fatalities, a Pedestrians' Protective Society is being organized in London.

Esperanto has been recognized as an international language by the International Congress of the World Telegraph Union.

The United States Government has notified the League of Nations that it will not object to the proposed postponement of the preparatory disarmament conference.

The Toronto board of control has awarded a contract for a thousand tons of Alberta coal and deliveries are to commence forthwith at the rate of six cars per week.

Students of Waseda University, Tokyo, are reported to be preparing to launch a campaign for greater scholastic freedom and for elimination of compulsory military training.

Hop production in Canada will be doubled, the department of agriculture estimates, when 1,000 acres, to be purchased for this purpose on the reclaimed Sumas Lake Bed at a cost of \$250,000 are brought under cultivation.

Sound waves in future will quench all fires, says Charles Kellogg, California inventor, who demonstrates his theory by extinguishing two-foot gas flames by the use of a tuning fork and a bowl.

Planting of Canadian maples in the valleys of the Himalayas for reforestation purposes is a possibility, according to Rev. David Rose, missionary on furlough from the Kangra district of India, who has taken the matter up with the Indian forestry department.

Painful Sprains, Bruises, Restored By Nerviline

There is soothing power in Nerviline that has made it famous for nearly fifty years past. It sinks in deeply, it penetrates quickly, it takes away the pain from a sprain and brings grateful relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbago, if Neuralgia bothers you now and again, use trusty old "Nerviline." It works wonders, whether the pain is internal or external. Get a large 35-cent bottle from your dealer today.

"How is it, Katie, that I never see you at Sunday School?" asked the minister's wife. "Oh, please, ma'am, I'm having music-lessons. Mother doesn't want me to take up religion till later!"

Mrs. Oldred: "I'd like to have a little less fat, if possible."
New Butcher: "Yes, ma'am, have you tried dieting?"

Are You Nervous? Weak?

Why Wait For A Complete Breakdown?

—The Shaw Studio
Hamilton, Ont.—"I had become very much run-down in health, was in a nervous state and grew very weak. But by the time I had taken about three bottles of Dr. Pierce's Favorite Prescription I was feeling well and strong. It restored my nerves and built me up to a good healthy state. I think the 'Favorite Prescription' is the greatest nerve tonic that any woman can take."
—Mrs. Margaret Butt, 102 Calhoun St.

ON THE AIR

What is Doing in the World of Radio

There are still some bad features about the radio. That "prisoner" song for example.

Australian broadcasting and education authorities have got together on a joint programme to offer educational courses by radio.

Something new in radio production was attempted recently when a one-act comedy, "Part of the Game," was successfully broadcast from CKCK, Regina.

On the eve of the Saskatchewan Dairy Association convention, R. W. Helm, Prince Albert, president, broadcast a ten-minute address on the dairy industry from CKCK, Regina.

Children under 12 years of age have been refused permission to take part in a broadcast concert at Brimingham, Eng. The local educational authorities will permit children between 12 and 14 to perform up till 9.15 p.m.

Officers of the Canadian Association of Broadcasters, recently formed, were elected as follows: J. N. Carter, CKAC, Montreal, president; Main Johnson, CFCA, Toronto, vice-president; A. R. McEwen, Canadian National Railway radio department, secretary-treasurer; G. M. Bell, CKCK, Regina, and P. H. Combs, CHNC, Toronto, directors.

Eclipse Fashions
Exclusive Patterns
by Kathleen

Long Bodice Effects Are Maintained in Jumper Frocks

The two-piece jumper frock is meeting with such welcome that new materials are constantly sought for its development. Crope kimonos of an unusually attractive border design was employed for the over-blouse opening all the way down the front under a narrow box-plait. The long full sleeves show the border design at the lower edge. The skirt has two inverted plaits in the front and back and is attached to a body lining. Overblouse No. 1173 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 bust requires 2 1/2 yards 36-inch, or 2 3/4 yards 40-inch material. Skirt No. 1185 is in sizes 28, 30, 32, 34, 36 and 38 inches waist. Size 28 waist requires 3 yards 36 or 40-inch material. Price 50 cents each pattern.

Many styles of smart apparel may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity brought within the reach of the average woman. Price of the book 10 cents the copy.

Head and Chest Colds Relieved In a New Way

A Salve which Relieves Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly. Suffered for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, influenza or hay fever. Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

VICKS VAPORUB
OVER 21 MILLION JARS USED YEARLY

Wheat From the North

Grain Shipments From Northern Alberta Were Heavy This Season

Grain shipments from the territory in Northern Alberta served by the Edmonton, Duvegnat and British Columbia Railway, for the crop year 1925, now total 1,857,000 bushels. This is considerably in excess of 1924 and 1925, when shipments totalled 850,547 and 1,435,000 bushels, respectively. Almost two-thirds of this season's total shipments consisted of wheat.

She Found Relief For Her Backache

Mrs. A. Caskanett Tells of Dodd's Kidney Pills

Sends a Message of Cheer to Thousands of Canadian Women Who Carry a Load of Pain and Weariness Through Their Daily Work. Greenock, Ont.—(Special).—"I had a terrible backache and thought it was caused through my kidneys. I bought some Dodd's Kidney Pills and they helped me so much. Whenever I am not feeling well I get a box. I would not be without them. A friend of mine advised me to try them and I can say they are all right and can recommend them." This message comes from Mrs. A. Caskanett, a well known and highly respected resident here.

It must bring cheer to that great army of Canadian women who daily go about their household duties weighed down by that curse of womanhood, backache.

The relief that Mrs. A. Caskanett found has come to thousands of other women through the use of Dodd's Kidney Pills. That shows that the ache is caused by the kidneys.

Paper From Straw
Government tests of the Bach-Wilf process of manufacturing paper from straw having proved successful, a plant may be established in Edmonton. Drumbler board of trade is also bidding for the new industry.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthiness. They are an excellent remedy for these evils.

A cheap coat does not make a cheap man, but it makes him feel that way at times.

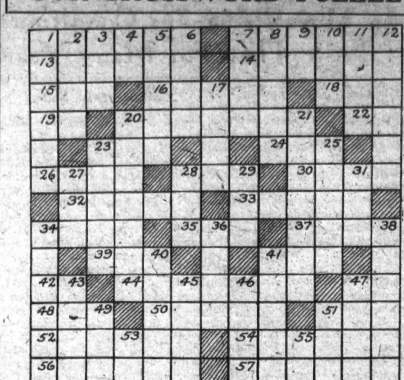

Only the unfortunates endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

Some people read that they may think; some read that they may write; some read that they may talk; and the latter constitute an overwhelming majority.

PAIN
Yields quickly to a few applications of **MINARD'S** Squall by good for internal or external use.

SUNDAY SCHOOL LESSON

FEBRUARY 14

JESUS THE GOOD SHEPHERD

Golden Text: I am the good shepherd; the good shepherd layeth down his life for the sheep. John 10, 11.

Lesson: John 10: 1-30.

Devotional Reading: Psalm 23.

Explanations and Comments

The True Shepherd and the False Shepherds, verses 1-5. This allegory Jesus spoke to comfort the man born blind (our lesson last week), and to condemn the Pharisees who had excommunicated the man and accused Jesus of being a sinner for working a miracle on the Sabbath. "Verily, verily," Jesus began; by these words he drew attention to the importance of the discourse that was to follow, and also connected it with what had preceded. Then he pictured an eastern shepherd—a large, open enclosure with only one entrance, where the flocks of several shepherds are kept during the night—into which a thief seeks entrance by climbing up over the wall that encloses it, while the shepherd enters by the right way, through the door which the porter opens for him. The sheep know the shepherd's voice and come at his call. He goes before them and they follow, while from a stranger they flee, because they know not his voice. The eastern flock is not driven, as in our country, but is led; so one in the Eastern shepherd that the sheep will follow that he does not even take the trouble to look behind.

Western Fairs

Dates Are Announced For Class B Fairs For Coming Summer

Fairs of the Western Canada Association of Fair—class B—will commence June 30 this year, and wind up August 19; it was decided at the annual meeting of the association, held in Regina.

Fairs to be held and their dates as set by the meeting, are as follows: Carmen, June 30, July 1 and 2. Portage la Prairie, July 5, 6 and 7. Dauphin, July 8, 9 and 10. Yorkton, July 15, 16 and 17. Melfort, July 15, 16 and 17. Estevan, July 19, 20 and 21. Weyburn, July 22, 23 and 24. Red Deer, July 26, 27 and 28. Camrose, July 29, 30 and 31. Vegreville, August 2, 3 and 4. Vermilion, August 6, 7 and 8. Lloydminster, August 9, 10 and 11. North Battleford, August 12, 13 and 14. Prince Albert, August 16, 17, 18 and 19.

Alberta Butter Winnings

Excellent Showing Made by Province in Dominion Butter Competitions

Teamwork butter produced in the province of Alberta during the past season won 37 per cent. of all prizes offered at the 11 exhibitions in Canada at which exhibits from this province were shown, according to a statement compiled by Dr. Marker, dairy commissioner. The number of prizes was 275 out of a possible 710. Of all first prizes offered, Alberta won 50.0 per cent.; of second prizes, 44 per cent.; of third prizes, 44 per cent.; of fourth prizes, 35 per cent.; of fifth prizes, 29 per cent.; of sixth prizes, 83 per cent.; of seventh prizes, 23.3 per cent.; and of eighth prizes, 22.2 per cent. In the eastern exhibitions, Alberta won 13 out of 44 prizes at Ottawa, 10 out of 36 at Toronto, and 9 out of 21 at London.

She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. I. M. Parks, Concession, Ont., writes: "I had heart and nerve trouble, and became so short of breath I could hardly do my daily housework, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me."

I Saw

recommended, so I tried it after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 25 years and has achieved a world-wide reputation for the relief of all heart and nerve trouble like a shock to me.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

DAIRY PRODUCTS ARE NEEDED IN GREATER VOLUME

Regina—Stressing the value of diversified farming and the promotion of a prosperous and contented people in Saskatchewan, Hon. C. M. Hamilton, minister of agriculture, presented the trophies and prizes won by the successful competitors in the various contests staged by the Saskatchewan Dairy Association, at the annual banquet.

R. W. Helm, president, was in the chair, and there was a record attendance of approximately 500.

A feature of the function was the presentation by the minister of agriculture of the trophies won by Chris Hansen, butter-maker for the Saskatchewan Co-operative Creameries, Regina, for first place in unsalted butter competition at the London, England, dairy show last year; and the second prize for salted butter, won by L. Jensen, butter-maker for Caulders Creameries, Ltd., Carlyle branch, at the same show.

Mr. Hamilton said it was particularly gratifying to see the producers and manufacturers gathered together in good fellowship. Both had a great deal in common. Both were interested in production and the needs for increasing the volume of dairy products, and both parties recognized the importance of placing high quality products on the markets of the world and the value of uniformity.

Professor R. M. Wastburn, St. Paul, Minnesota, conveyed the greetings of the dairy producers of Minnesota. He has attended conventions in 34 states and six provinces in the last 20 years, but he congratulated Saskatchewan on having the spirit of optimism and co-operation to a greater degree than most other sections of the continent.

Dr. F. C. Scott, secretary and general counsel to the National Dairy Council of Canada, and E. N. Hopkins, Moose Jaw pioneer dairyman, also briefly addressed the gathering.

Probe Urged On Capital Punishment

Attorney-General, Manitoba, Suggests Committee to Study Question

Winnipeg—Appointment of a committee by the Federal Government to study the question of capital punishment and make a careful and objective analysis of the subject was suggested by Hon. R. W. Craig, attorney-general in the Manitoba Legislature. Williams Ivens, labor, brought the question before the house and the debate lasted more than an hour.

Mr. Craig said the old Mosaic law of "a tooth for a tooth" sounded ridiculous today and a "life for a life" was the only phase of it left.

Ancient Site Discovered

Market Place of Roman London Revealed By Excavators

London—Excavations for a building at the corner of Grace Church Street and Lombard Street, the busiest commercial section of London, have revealed what is believed to be the site of the main forum, or market place, of Roman London during, roughly, the first four centuries of the Christian era, when the city was called Londinium.

Piers and the remains of a wall uncovered apparently fit not only the site but the boundaries of this centre of Roman commercial life.

Howard Capt. Fried Paris—Stephane Lathuane, editor of the *Matin*, asks the government to award the Legion of Honor to Captain Fried and Chief Officer Miller, of the steamship *President Roosevelt* for their heroic efforts in rescuing the crew of the British freighter *Antelope* and also to Master-at-Arms Wilkes and Boatswain Mate Ernest Hoffman, who were drowned.

Would Outlaw War Stockholm—By the signature of a compulsory, unlimited arbitration with Finland, Sweden has completed a system of agreements with all her Scandinavian neighbors for the outlawing of war. Similar treaties have been concluded with Norway and Denmark.

W. N. U. 1615

Will Add To Territory

Survey Has Disclosed That Ontario Has 1,500 More Miles Adjoining Manitoba

Ottawa—As a result of surveys carried on during the past year it has been found that Ontario has approximately 1,500 square miles of territory more than previously estimated, according to the report of the land survey committee of the Association of the Dominion Land Surveyors. The report was submitted at the annual meeting here.

A survey has disclosed that the position of Island Lake, the governing point on the unsurveyed boundary between the provinces of Ontario and Manitoba was 25 miles out of place. The correction of this added the 1,500 square miles to the Ontario area.

In the Northwest Territories, an exploratory trip was made across country never before visited by the white man where a lake series two hundred miles long was discovered.

The report, which includes the activities of Dominion land surveyors, records that a start was made on the survey of the north boundary of the province of Alberta, the line being marked by permanent monuments for a distance of 36 miles westward from Slave River.

Substantial Prize Offered

Dancing Masters Seek Something New to Replace Fox Trot

Paris—Europe is ready for a new dance, and the dancing masters are ready to pay a goodly sum for one. The *Charleston* has been tried and found "not new" by this month.

The fox trot has captured its 15th year. The tango has met with mixed reception, but the waltz apparently is to be eternal.

At the European dance congress which meets at Brussels this month, a special prize of 10,000 francs will be awarded for the dance most likely to replace the fox trot in popular favor. The dance must be based on the waltz step.

Ask Wider Control Of Films

Too Many U. S. Pictures Says London County Council

London—The London County Council, by a large majority, adopted the recommendation of its theatre and music committee made that the government be asked to give the council wider powers to control the moving picture films exhibited in the county of London.

The committee's report issued in December alluded to the predominance of United States films and favored giving the council wider powers of control.

It also advocated making compulsory the exhibition of a certain proportion of British films.

Big Test For Railways

Faced With Problem of Carrying Delegates to European Congress

Montreal—One of the largest special passenger traffic movements in the history of Canadian railroads will take place this summer in connection with the European Congress at Chicago. Chicago is preparing to be host to more than one million pilgrims during the congress from June 20 to 26 and the role that the railways will have to play in the transportation of the greater part of this huge gathering presents problems which are occupying the full time of a committee of the keenest traffic experts on the continent.

Historic Painting Finished

Tokyo—The Japanese painter Gasei Takatori, who has been reproducing on a scroll the historic scene of the great accession ceremonies of the present emperor, has finished his work after ten years. The scroll is 30 feet long and more than 1,000 human figures are painted on it. The scroll will be presented to Emperor and Empress.

Elevator Damaged By Wind

Vancouver—A violent windstorm did damage to the gallery of the Woodward grain elevator here. The gallery was blown off the deck, but the building was salvaged. It will take ten days to repair the damage, but there will be no loss of time in receiving and shipping grain. It is stated the damage amounts to about \$2,000.

HOPE TO CURB SMUGGLING BY A NEW TREATY

Washington—According to American customs officers, the new Canadian-U.S. trade boundary treaty is proving useful to this government in tending to prevent smuggling in violation of the United States customs laws. They say Canadian customs officials are showing a disposition to co-operate in preventing such violations.

Before the treaty, the Canadian officials felt themselves precluded from giving information to the United States officials which might prove useful in preventing smuggling or in apprehending smugglers.

Under the treaty, it is learned, a number of useful tips have been given to United States officials from Canadian official sources and vice versa. United States officials also consider they have been useful to the Canadian authorities.

How Texas Controls Crime

Members of Police Force Are Expert Pistol Shots

San Antonio, Tex.—Down here in the shadow of the old Alamo, folks generally and the police in particular, have a reputation for being quick on the trigger. But San Antonio, with a population of more than 500,000 and police department of 153, has not had a major robbery in five years.

The remarkable absence of gunmen, safe-breakers and others of that portion of the population is accredited to the fact that there are 25 men on the force who are expert pistol shots. The whole force, including the marksmanship medal-holding Chief T. O. Miller, engage in pistol practice at regular intervals. It is said that if officers were beaten on the "draw," they would hand over their weapons indignantly.

The 153 persons of the force, which includes matrons and other attaches, patrol an area of approximately fifty square miles.

Old-Time Tribunal Revived In Germany

Four Men Sentenced to Death For Murder of One

Berlin—Four members of the so-called "Black Reichswehr" were sentenced to death in the first of a series of summary trials. Two others were given prison terms, and five acquitted. They were accused of the murder of one Panzer, another member of the organization.

These tribunals, or "Volksgerichtshof," were revived during the Weimar era and exercised a powerful and sometimes sinister jurisdiction in Germany. The court's only punishment was death, which was carried out on the spot.

Votes Depends On Programme

Miss McPhail Says People Are Misunderstanding the Situation

Ottawa, Ont.—Agnes McPhail, M.P., has provided a good deal of copy for masculine pens. The *St. Catharines Standard* says: "She talked one way and voted the other, just like a woman." She herself said in an interview: "People are misunderstanding the situation. We voted on a constitutional question. We did not give the government a vote of confidence. For my part I would not hesitate to change my vote, it depends on the programme."

Wrote Bible In Braille

London—John Andrew Ford has been presented with a chilling clock in recognition of 50 years' work as proofreader and stereotyper at the National Institute of the Blind. Mr. Ford has written the whole of the Bible in Braille by hand, a process which involved some 20,000,000 blows with a hammer.

Has Much To Learn

London—Mr. Justice Eves, of the chancery division high court, has just discovered the existence of the saxophone. During a case the judge asked counsel: "What is a saxophone?" "It is not," counsel replied. "It is an instrument resembling a sword, and is used in what I understand are called jazz bands."

Labor Editor Refused Admission To States

U. S. Authorities Hold Up T. E. Moore At Border

Washington—T. E. Moore, prominent Canadian labor worker, and editor of the *"The Big Bear"* at Winnipeg, was held up at the border by United States authorities, while en route from Winnipeg to Chicago to attend a meeting of labor editors in the Illinois city.

According to word reaching here, the action of the government men is due to objections to Moore's papers and not to him personally.

Labor party officers here have protested to Secretary Davis of the labor department and an immediate report from the detention official has been asked.

Friends of Mr. Moore maintain the procedure is illegal and unjustified.

Egg Drive At Coast

An Egg a Day Campaign Helps to Boost Prices

Victoria, B.C.—An egg a day drive started by British Columbia poultrymen in an attempt to reduce the present egg glut on the Canadian market is having its effect in a gradual stiffening of prices, according to Hon. E. D. Barrow, minister of agriculture.

Increased public buying on the strength of low prices is having a real effect on the egg situation, Mr. Barrow said. "The campaign which the producers have been conducting to increase egg consumption is eating into the huge egg surplus which has been depressing the market. This is reflected in gradually increasing egg prices."

Burned Cargo For Fuel

British Freighter, Reaches Philadelphia Nineteen Days Overdue

Philadelphia—Nineteen days overdue, after battling the gales which have been raging on the Atlantic for several weeks, the British freighter *Byburn*, with a cargo of briquettes from Rotterdam, limped into quarantine at Marcus Hook.

She was burning her cargo for fuel, her bunkers having been scraped clean in the battle with the storms, described by Captain David Duncan Milne as the worst he ever experienced.

Reveal Communist Plot

Assassination of Greek Leaders Was Planned Says Report

Athens—The existence of a Communist plot to assassinate Premier Pangalos and other Greek leaders is underfoot to have been revealed by the disclosure of correspondence with the Communist International in a raid on a Communist center here. A semi-official report says the police arrested three Greek Communists. The police seized a printing press used for the publication of a secret Communist periodical.

Wants To Make New Record

Owner of Lunch Wagon Practices For Eating Contest

Morganau, W.Va.—After a practice session during which he devoured six sandwiches, six pork chops, one large loaf of Italian bread, a dish of lettuce salad and another loaf of bread, Louis Thibault, owner of a lunch wagon, has announced he will go after the world's eating record. His tentative menu included 12 pounds of fish, four loaves of bread, five cups of coffee, and two dozen eggs. Police officers will referee the contest.

Reduce Cost of Weddings

Constantinople—Fathers of marriageable daughters have found a real friend in the governor of Constantinople province. He has promulgated a law restricting to great detail expenditures allowed in connection with weddings and forbidding many of the picturesque but costly features which have been part of Turkish weddings for ages.

U. S. Sailor Killed

Havana—One United States sailor was killed and another seriously injured during a clash between Cubans and exiled navy men at Regeneron, a small village near the United States naval station on Guantanamo Bay. No Cubans are reported to have been seriously injured.

EMPLOYMENT FOR BRITISH SETTLERS IS GUARANTEED

Ottawa—A series of questions was addressed to the minister of immigration in the House by Hon. J. W. Edwards (Conservative, Frontenac, Adglaton) in respect to the securing of immigrants. Dr. Edwards quoted advertisements from English papers referring to guaranteed employment. Dr. Edwards asked what kind of employment was guaranteed so that Canadians out of work could have an equal chance at it.

Hon. Charles Stewart, acting minister of immigration, said there was a guarantee of employment for five years to selected immigrants. The railway companies and the government were working in co-operation in this work. The Federal Government and the provincial officials were also co-operating. Mr. Stewart explained that the expenses of immigrants were borne by the Canadian Government, which contributed \$2; the steamship companies \$3; and the British Government \$7. The minister said he would be glad to explain the work fully at a later date.

Big Butter Shipment

New Zealand Sends 336,000 Pounds Butter to Vancouver

Vancouver—A total of 336,000 pounds of butter will arrive from New Zealand on the liner *Ararangi*, most of which is for consumption in Vancouver.

In the first week in January an initial shipment of 3,000 boxes was brought in, with the result that the price of the British Columbia product fell from 44 cents a pound wholesale to 44 cents.

It is not expected that there will be any further drop, owing to the fact that colder weather on the prairies has reduced production there.

Keep To Facts

Howard Urges Teaching of Truth About National Heroes

New York—Sir Esmé Howard, British ambassador, also is an advocate of teaching children the truth about national heroes, even if it disrupts legends of many years standing.

Howard, in a speech before the New England Society here approved the methods of modern historians in teaching the true facts, even though it "diminishes the traditional virtues of national heroes and make former antagonists appear less monstrous than in old wives' tales."

May Visit Russia

Lloyd George Receives An Invitation From the Bolsheviks

London—An invitation has been sent to David Lloyd George to visit Russia.

It does not come from the Bolshevik Government, but the Bolshevik, it is said, have indicated that they would welcome his visit and would afford him an opportunity to investigate conditions in Russia.

"I shall probably go sooner or later, but not yet," was Mr. Lloyd George's comment on the invitation.

Rescue Damaged Sub

Key West, Fla.—The United States submarine *T-3* was towed safely into port here by the naval tug *Bay Breeze* after having been battered about at the mercy of the waves. The submarine was enroute to Key West from New London, Conn., when her fuel supply was exhausted off the Florida coast.

Russian Officials Sentenced

Koenigsberg, Russia—Fifty-four officials of the state machinery trust were sentenced for embezzlement of government funds. One was condemned to death, two were given ten years imprisonment, three eight years, and the remainder shorter terms.

Much Unemployment in Poland

Warsaw—Statistics show that 200,000 workmen in Poland of a working population of 900,000 are out of employment. These figures indicate an immediate improvement in the situation.

Brilliant Winter Carnival at Banff

1. A daring leap into space. 2. Tobogganing parties. 3. A swift run down means an up hill walk. 4. Ski-jumping at a fast clip. 5. A dog team training for the Derby.

During the coming winter carnival at Banff, the mornings will be set aside to entertain visitors, afternoons and evenings for the events. In former winter carnivals in Banff so many events were crowded into a week as to preclude visitors from taking part in the fun themselves. This year, the committee met the wishes of the visitors by extending the annual event to cover two weeks, from February 8 to February 17 inclusive.

The most expert skiers and snow-shoers in the mountains will thus be freed from competitions to take charge of parties of visitors on pleasure bent. They have selected five depots within a radius of two miles from Banff, so selected to allow return over a different route than the outgoing trip. Ski slides abound on these trips, some difficult enough for the expert and others more moderate to initiate novices into this sport, the king of winter pastimes.

Fonies will be available for ski-fores and those wishing to partake of the run on toboggans or bob-slides. A real western barbecue of steaming hot meat of wild game, bread, coffee or tea, will appease the appetites of the hikers at each of these depots. During the carnival a hike par excellence to Lake Minnewanka is planned. Here a huge buffalo will be barbecued over a glowing bon-fire on the lake shore.

Bill Pettit, head of the Rocky Mountain Guide Association and Howerton Limited are bringing forty ponies from the range early in January to train them for skiing during the carnival. Fonies, skis and guides will be at the disposal of those who may need them.

From seven to ten dog teams will be available for trips into the mountains, on the Bow River, over the locked Bow Falls or across the Vermillion Lakes. Mountain ponies with bob-sleighs will cover the same route.

Present plans call for a new World Championship dog derby from Calgary to the top-of-the-world, the Great Divide in the heart of the Rockies, and back to Banff in the mountains. This three day race will pass through Banff on the morning of the second day and finish in Banff at the ski-jump where these events are being run off.

While waiting for the arrival of the teams visitors will witness Canada's premier ski-jumping competition on the new Banff jump. Many acknowledge this new jump as the most picturesque and spectacular in Canada, set on the side of a mountain as it is, the jumper begins the slide far up on the mountain side, and seems to soar to earth through a lane of pines and spruces. The wooden take-off carries him into the air sixty feet above the heads of the spectators below. The new jump is built for leaps into spaces of from 40 feet to 150 feet.

During the two weeks eight ladies' hockey teams will contend for the Alpine Club of Canada Cup emblematic of world's championship in this sport. Six of western Canada's best amateur men's hockey teams will fight a bitter battle on the ice for carnival honors. Speed skating and fancy skating events and exhibitions, interspersed between periods in the games, relieve the monotony of the wait and pep up the sport activities.

Stony Plain and District.

On Thursday, Feb. 14th, to Mr and Mrs Gus Zucht, a daughter.

'Dante's Inferno' will be the picture shown in Ducholke's hall on Monday evening.

The Stony Plain Rifle Club is holding a Smoking Concert on February 18th in Ducholke's hall. All members are requested to attend and to bring any friends interested.

While sawing wood in the Blueberry district, young Louie Enders had the misfortune of having two fingers of his left hand badly cut and it is feared that he will lose them both.

The Girls' Club is holding a Henry Ford dance in Ducholke's hall tomorrow night. Everybody come and bring your Lizzie.

Hy Ulmer is holding a Clearance Sale of Live stock, machinery and household goods at his farm South-east of town on Thursday, Feb. 25.

The Curlers' Silverware Competition has been completed resulting as follows: J. McCulloch, Rink 1st, J. Miller 2d and Jas Smith 3d.

The final session of the Provincial government opens in Edmonton today.

Death of an Old-Timer.

The death occurred Friday morning, Feb. 5th to Mr Frederick Ulmer, an old and respected farmer of this district, at his home south-east of town. The deceased was one of this district's old timers having resided here for some thirty five years, and leaves to mourn his loss, three sons, Carl, Joseph and Jacob, and four daughters, all of which are residing in this district. He was in his 74th year.

The funeral took place on Sunday at the Lutheran cemetery where services were conducted by Rev. E. Eberhardt, and where the whole district as a body turned out to show their last tribute of respect to the deceased.

SPORTING NOTES.

The local hockey team leaves this afternoon for Fort Saskatchewan where they will engage the team there in the evening. A return match will probably be arranged for in Stony.

The next big hockey match billed for the local arena will be staged on February 14th; the Calahoo boys being the opposition. Come and boost!

Stony Plain. Whitewashes Evansburg. Score 2-0.

The local gang of puck-chasers paid a visit to Evansburg over the week-end and were successful in defeating the combined teams of Evansburg and Lethbridge by the score of 2-0.

The game was one of the best played by the locals for years and the victory over the strong Miner team was fully merited by them. The game started out fast and with everyone playing real hockey and it was not long before Chesser put Stony in the lead by a well-earned goal. Umhach gave the locals another marker before the end of the first period and it ended the scoring for the game.

During the next two periods Evansburg strove their hardest but to no avail as Goulie Laird was right there and some of his stops were decidedly sensational and his work throughout the entire game deserves creditable mention. The locals lined up as follows:

Goul-Laird, Defence—Ulmer and Miller. Forwards—Chesser, Zucht, Heichen, Umhach and Alt.

All said and done Stony has a real team and deserve more support than they have been getting. At Evansburg the whole town turned out to see the game and a collection which was made netted them over \$20, here we get about \$98. The fans up there gave our team a real reception and cheered the efforts of our players as well as their own; that's Sport.

Lorne Outway takes the Junior team into the city tomorrow to engage the hockey team of the Concordia College.

Here and There

Sawn lumber production in Nova Scotia during 1925 totalled 300 million feet, according to the provincial government statistics. Of this quantity 175 million feet have been exported.

Canada's mineral output for 1925 is estimated at \$228,440,000, as compared with \$209,585,406 for 1924. The previous record was \$227,359,665 in 1920, when metal prices were about 35 per cent. higher than in 1925.

There are 4,045,700 acres of home-stead lands in Manitoba, in a radius of 20 miles from railway lines. In all there are 25,250 quarter sections, or sufficient to settle 20,000 families, the bulk of the land being in Eastern Manitoba.

The value of wheat delivered at Western Canada ports from August 1 to December 15, 1925, was \$338,800,000, representing an average cash return to farmers of over \$1,500 per farm. This is a new high record and the returns are greater for the four and a half months than for the entire preceding year.

According to information at Canadian Pacific Railway Headquarters at Montreal, the Canadian curlers who went over to Scotland on the C. P. liner "Westcoast" are touring the land of the thistle with success. The Canadians defeated Strathmore and Loch Leven at Edinburgh. J. G. Macdonald, of Fort-William, was still unbeaten.

The whole company of "The Three Little Maids," an English musical comedy starring the famous British comedienne G. P. Himley, arrived at the C. P. R. Windsor Station, Montreal, recently, and grouped themselves round an engine for a novel photograph. The show is due in Ontario during the months of February and March.

A settlement, to be known as the Clan Donald colony, comprising 100 families and covering 50,000 acres of land, will be established near Vermilion, Alberta, this spring, through a joint contract entered into by the Canadian Pacific Railway, the Overseas Settlement Committee and the Scottish Immigrant Aid Society. The railway has purchased the land and the Scottish Immigrant Aid Society is to secure the immigrants.

According to G. A. Harcourt, Secretary of the Soldiers' Rehabilitation Committee at Montreal, the work has been done in the placing of many returned men in good positions. There are still about 800 returned soldiers, married and living in Montreal, who are out of work, but many of these will be placed in the model city of Arvida, which is being constructed by the Aluminum Company of America in the Lake St. John district in Quebec.

Alfred H. Devenish has been appointed manager of the Royal Alexandra Hotel, Winnipeg, to succeed S. F. Pierce who has gone to the Vancouver Hotel, according to an announcement by the Canadian Pacific Hotel Department. Mr. Devenish joined the Canadian Pacific Hotel Department in 1912, and was later accountant and assistant manager at the Place Viger Hotel in Montreal. He will leave the Algonquin Hotel at St. Andrews, N.B., where he has been manager, to go to Winnipeg.

A wide and distinguished galaxy of speakers from Great Britain, France and the United States is announced for the third triennial National Congress on Education, to be held in Montreal April 6 to 9 next. Among those included are: The Duchess of Atholl, Parliamentary Under-Secretary to the British Board of Education; Sir Henry Walford Davies, Chairman of the National Council of Music of Wales; Senato Andre Honnorat, former Minister of Education at Paris; His Grace Mgr. Alfred Boudillard, Archbishop of Paris.
